## MOST RECENT EXPERIENCE

### DATA ANALYST & SOLUTIONS ARCHITECT (TEMP. CONTRACTOR) – SEP – DEC 2018 GCI- Anchorage, AK

Worked with GCI as a contractor to architect a robust data solution for storing and handling data regarding 911 traffic routing with integration into existing GCI datasources, along with the implementation of an effective yet low-learning curve interface, and dynamic report generation for upper management.

### WEB DEVELOPER – FEB – AUG 2017 UNIVERSITY OF ALASKA ANCHORAGE – Anchorage, AK

My role with this job was to help migrate our older website to a newer CMS. My main project was to build an internal CRUD (Create, Read, Update, Delete) application for the HR department to upgrade the standard form submission process from a paper and fax based approach, into a fully automated online solution.

### PAST EXPERIENCE

Less relevant experience and positions held are also available on my LinkedIn profile or upon request.
